

Project Plan for AI Meeting to Execution Agent

Gantt Chart – AI Meeting-to-Execution Agent

Final PPT Preparation

Project Demonstration

Legend:

■ = Activity Scheduled

Week 1 – Core AI Pipeline

Activities

- Requirement Analysis
- SRS Preparation
- Project Planning
- GitHub Repository Setup
- Whisper Integration
- OpenRouter Integration
- Audio Upload Module

Deliverables

- Approved SRS
- GitHub Repository
- Audio-to-Transcript Pipeline
- OpenRouter Connection

Milestone

Meeting audio successfully converted into transcript.

Week 2 – AI Processing & Database

Activities

- Meeting Summary Agent
- Task Extraction Agent
- Database Design
- SQLite Integration
- Task Storage Module
- Meeting Storage Module

Deliverables

- Summary Generation

- Task Extraction
- Database Tables
- Meeting History Storage

Milestone

Meeting recordings automatically converted into summaries and actionable tasks.

Week 3 – Dashboard & Intelligent Monitoring

Activities

- Flask Dashboard Development
- Meeting History Page
- Statistics Dashboard
- Risk Detection Agent
- Deadline Parsing
- Overdue Task Detection

Deliverables

- Dashboard UI
- Risk Monitoring Module
- Deadline Monitoring Module
- Task Status Tracking

Milestone

System displays meetings, tasks, risks, and overdue items through a centralized dashboard.

Week 4 – Notification System & Finalization

Activities

- Gmail SMTP Integration
- High Priority Task Alerts
- UI Enhancement (Glassmorphism Design)
- Testing & Bug Fixing
- Documentation
- PPT Preparation
- Final Demonstration

Deliverables

- Email Notification Agent
- Final Dashboard
- Project Documentation
- Presentation Slides

Milestone

Fully functional AI Meeting-to-Execution Agent ready for demonstration and submission.

Tools & Technologies

Programming Language

- Python 3.13

Backend Framework

- Flask

Frontend

- HTML5
- CSS3
- JavaScript

Database

- SQLite

AI & Machine Learning

- OpenAI Whisper (Speech-to-Text)
- OpenRouter API (LLM for Summary, Task Extraction, Risk Detection)

Notification Service

- Gmail SMTP

Scheduling

- APScheduler

Development Tools

- VS Code
- Git
- GitHub

Python Libraries

- openai-whisper

- openai
- flask
- sqlite3
- python-dotenv
- yagmail
- apscheduler
